

Welcome to **BIOWILL**

The BioWILL Team

BioWILL consists of 10 project partners in four countries across Northwest Europe (Belgium, France, Ireland and the United Kingdom).

Coordinated by the University of Limerick, the consortium comprises of 3 universities (University of Limerick, Bangor University and University College Cork), 3 research institutes (Agri-Food and Biosciences Institute, Institute of Technology Tralee and Materia Nova), 4 SMEs (Cellulac Plc, Epitheal Ltd, Agriland and Helicon Ltd), 1 consultancy (Crops4Energy), 1 industry forum representing all sectors of the renewable gas industry in Ireland from producer to end-users (The Renewable Gas Forum of Ireland), 1 gas company (Gas Networks Ireland) and 1 organisation representing farmers and landowners across the EU (European Landowners' Organisation).

BioWILL is an Interreg North-West Europe (NWE) project, co-funded by the European Regional Development Fund.

The BioWILL consortium comprises the following partner and sub-partner organisations: University of Limerick, Agri-Food and Bioscience Institute, Cellulac Plc, Epitheal Ltd, Gas Networks Ireland, Bangor University, Materia Nova, European Landowners' Organisation, University College Cork, Agriland, Renewable Gas Forum Ireland, Crops4Energy, Helicon Process Development Solutions and IT Tralee - Shannon ABC. It is coordinated by Dr. J.J. Leahy at the University of Limerick.
